WHERE TO SPEND

one4all.ie

Birthdays

Congrats

The One4all Gift Card is a perfect gift for any occasion.

Thank You

Just Because

Your gift card needs to be loaded with money before use. Is it displaying zero balance immediately after purchase? Simply wait 24 hours and check again.

Spend your card for full or part-payment with any One4all partner. Simply swipe it in the card reader at the till. This is a prepaid card, so it is processed like a debit card. Do not forget to check your balance before you spend your card as the retailer will not be able to find out your balance.

Shop online by removing the scratch off panel on your card to reveal your CVV and relevant dates for online shopping. You can spend up to the value of your card online.

Did you know the EU Anti-Money Laundering Directive introduced a maximum online spend of €50 for gift cards? There is no maximum spend in-store.

We want you to enjoy spending your gift card and to treat yourself to something soon! It is best to spend your gift card within the first 18 months. After that, a nominal operational and processing charge of €1.45 commences monthly.

Download the One4all app to add your gift card to your digital wallet, check your balance, and more!

Protect your One4all Gift Card by treating it like it was cash, keep your card details safe, never disclose your card number or CVV, and ensure you check your balance using the official One4all website, app, phone or text services.

Full information about current retail partners, terms and conditions, privacy policy, FAQs, lost card, redemption charges and more can be found at one4all.ie.
